ROCKSTAR INTERN Secrets

★ 8 THINGS ROCKSTAR INTERNS DO TO STAND OUT!

Interns are a dime a dozen. Many are just there to collect school credit and look as though they have somewhere better to be. Follow these tips from Rockstar Interns to stand out in the crowd!

- 1) Dress for the job you want. Not the one you have! If you look like an intern they will treat you like an intern.
- 2) Never look bored! There is always something to do.
- 3) Take good notes! Take the time to write out step-by-step every single task you perform. When your time is up offer this to your boss as a guide for their next interns!
- 4) Ask if you can spend one hour a week shadowing different people from other areas (sales, tech design, marketing, etc.)
- 5) Ask to do a special project.
- 6) Ask questions and give your opinion. But be sure to be respectful and only give constructive criticism.
- 7) Stay late and teach yourself any necessary programs needed for the job.
- 8) Be a team player. Always look for who needs the most help and offer your time, skills, and services.
